SAFEGUARD THE FAMILY

Every mother knows how important is health to the happiness of her family.

Constipation, sooner than anything else, gives mental depression and ill humor. No one can be truly healthy and happy with a clogged intestinal system. And it is for the mothers to keep the family system clean and the family circle harmonious.

Constipation causes much more than bad-nature. It opens the way to scores of diseases through poisoning of the system and lowering its resisting powers.

EDITORIAL

The winter months bring to the buyer for the home for wear and for many other purposes opportunity for making some of the best trades of the year.

A buyer that will take the time to read the advertising of live merchants who are keen to close out many broken lines of goods or to add briskness to sales at a period when the world seems to slow up, will find himself or herself well repaid for her time and study, for there are offerings being made by many stores of splendid goods for surprisingly low prices.

One hears much today of high prices, but one will find that a dollar can be made to go surprisingly large service by employing it in the right direction—by seeking out the man who has something to sell at a low price and is telling his prospective customers about it in the advertising columns.

If, for instance, one would buy a pair of shoes, one might really discover in the business news, which is advertising, where a dollar or more can be saved by trading with the merchant who is telling you about some shoes—just the kind you want—that he is closing out at from one to two dollars a pair under the regular prices.

And so it is, too, with clothing, dry goods, meats, groceries, and scores of other articles.

Read the winter advertising. It will tell you how to save money. Danielson business men are cleaning up their stocks or are offering standard articles at special low prices to make February a lively month for sales.
